## OUR PROGRAM

The Fire Service lives and breathes by the principles of integrity, respect, discipline and pride. Our Firefighting Academy at East Lee County High School is designed for individuals who are interested in entering the public safety fields of either firefighting or emergency medical services (EMS).

## PROGRESSION

### FIRE 1 - SOPHOMORES INTRODUCTION TO FIRE SERVICE

We begin to introduce the students to the basic principles of firefighting.

### FIRE 2 - JUNIORS INTERMEDIATE FIRE SERVICE

We continue to teach the basic principles and students begin to apply those in hands on situations.

### FIRE 3 - SENIORS ADVANCED FIRE SERVICE

This mimics fire school. The recruits participate in activities such as fire prevention, public safety, enforcement of firefighting safety codes and standards, firefighting tactics, rescue techniques and emergency medical procedures. Recruits who successfully meet the requirements of the Academy and the Florida Bureau of Fire Standards and Training will be eligible to sit for the State of Florida Firefighting I Exam.
